JOB-RATED CAPABILIS

FROM HEAD TO TOE, IT'S MADE TO TOW.

By design, these trucks are born and bred to pull and haul. Huge available 7 x II-inch trailer-towing mirrors with a power-folding feature make your Ram Heavy Duty a command and control

Go—and tow—in the know: the full-color high-resolution screen in select Ram models feature dozens of graphics, conveying real-time data on virtually every mechanical function.

Available frame-mounted Mopars Gooseneck Hitch Assembly with easy ball removal for fast flatbed conversion. Optional Fifth-Wheel/ Gooseneck Prep Package includes in-bed 7-pin connector. (Ball not Findly 19 Package)

Available Mopar Fifth-Wheel Hitch enables super-tough trailer towing with authority. Options include a hitch with sliding rails or one that mounts directly into the optional Fifth-Wheel/Gooseneck Prep Package mounts, saving time

HOW DAM VIEWS TOWING

Intere's no looking back...to the old days, that is. Unly Ham Heavy Duty offers an available, class-exclusive⁽ⁱ⁾ * Cargo-View Camera^[2] for an invaluable on-screen display of the cargo bed—ideal for gooseneck or fifth-wheel hookups. Add the available ParkView[®] Rear Back-Up Camera^[2] to ease conventional trailer hookups—plus the capability to toggle between the two views on the 8.4-inch touchscreen—and you're looking at exceptional towing convenience.

*A note about this brochure: all disclaimers and disclosures can be found on the inside back cov

When properly equipped Properly secure all cargo

ONLY RAM HEAVY DUTY OFFERS THE MOST **GAS-POWERED V8 ENGINE OPTIONS!**

ALEGEND 5.7L HEMI° V8 • 383 HP 400 LB-FT OF TORQUE

- and capability measured in tens of thousands of miles. When compared to other V8 engines in the class, the 5.7-liter HEMI V8 in single-rear-wheel Ram Heavy Duty models delivers incredible standard nower and torque.
- the flow of fuel during deceleration, with no noticeable changes in operation, helping enhance fuel efficiency
- + You expect this powerhouse to do the job. Heavy-duty cooling is standard on all HEMI V8 engines.

ABRUTE 6.4L HEMI V8 - 410 HP 429 LB-FT OF TORQUE

- HEMI V8: 410 working horses give you the ideal gas engine for acceleration and highway merging and cruising, even under the heaviest loads.
- + Best-in-class[1] gas towing with the 6.4-liter HEMI V8 gives Ram Heavy Duty unrivaled authority—up to 16,320 lb on 2500 models, and up to 16,520 lb on Ram 3500 DRW models. (All towing figures apply to properly equipped trucks.)
- Along with that best-in-class[1] gas horsepower is best-in-class^[i] gas torque; the 6.4-liter HEMI V8 torque levels are rated at a super-competent 429 lb-ft @ 4,000 rpm.
- + The 6.4-liter HEMI V8 offers the advanced technology of Individual Cylinder Fuel Control, a diagnostic monitoring system that enables air/fuel refinements and ensures ideal mixtures for each individual cylinder.

- is unique for a gas engine; common to diesel engines, the EGR System is designed to enhance fuel efficiency in heavy-load and uphill towing situations. Heavy-duty cooling further enhances performance.
- + Fuel-efficient performance is engineered into the electro-mechanical heart of the 6.4-liter HEMI V8. Operating with seamless precision, our MDS/Fuel Saver Technology helps save fuel with no compromise or noticeable changes in engine operation. While cruising at highway speeds, the engine shuts off four of the eight cylinders, maintaining speeds with four-cylinderlike efficiency.
- + Best-in-class[1] payload rounds it out. A Ram 3500 equipped with the available 6.4-liter HEMI V8 delivers a top-tier payload rating of 7,390 lb when properly equipped.

THE TRANSMISSION: The 5.7-liter HEMI V8 and the 6.4-liter HEMI V8 are mated to the longproven 66RFE 6-speed automatic. This component delivers heavy-duty levels of capability for towing and hauling. Count on driver-adaptive shifting, three multiple clutch packs, dual filters on a dual-stage pump and an independent lubrication cooler to ensure ample pressures nd peace of mind nder all driving situations and towing/hauling conditions.

RAM TOUGH TRANSFER CASES

The two transfer cases employed by Ram 2500/3500 Heavy Duty are exactly what you need for ultra-4x4 capability. The BorgWarner BW 44\(\times\)46 transfer case features responsive electronic shift-on-the-fly engineering, with three operating ranges, plus Neutral.

The manually activated BW 44\(\text{M}\)47 transfer case also features three operating ranges, plus Neutral. Both of these impressive units offer a lowrange reduction ratio of 2.64:1\omega an ideal ratio when off road in a slow rock-climbing situation, or when using your Ram 4x4 on challenging terrain or steep grades. You need capability and performance that exceeds the need, and Ram Heavy Duty pickups are designed to excel.

AMONSTER

6.7L CUMMINS' TURBO DIESEL 385 HP • 900 LB-FT OF TORQUE

Proven in worldwide use, the 6.7L Cummins Turbo Diesel is engineered to the tolerances and durability to power semi-class big rigs. As available diesel engine for Ram 2500/3500 Heavy Duty, each of the three Cummins calibrations specifically addresses job-rated use and optimal transmission output. The results give Ram Heavy Duty models uncompromising strength for towing and hauling.

All power outputs of the Cummins feature a next-generation Diesel Exhaust Fluid (DEF) System, a super-efficient Diesel Cooling System

- is part of the Cummins legacy. With the available Cummins High Output Turbo, you can take advantage of that hest-in-class[1] 900 lb-ft of torque and 385 horsepower, with towing rated at 31,210 lb. (All towing figures apply to properly equipped trucks.)
- + Best-in-class^[1] diesel towing for Ram 3500 + Incredible torque for Ram 2500 comes from the available Cummins rated at 370 hn and 800 lh-ft, mated to the proven 68RFE 6-speed automatic: this beefed-up powertrain configuration is also available for Ram 3500 models

with 11-blade fan and, exclusive to the class, [1] a "smart" diesel exhaust brake. Output culminates in that best-in-class^[1] available torque of 900 lb-ft that the Cummins High Output churns out in Ram 3500 models.

Cummins + Ram Heavy Duty. It's a working combination that's now in excess of two million applications the ever-growing figure that sums up the enduring quality of this working partnership.

- + The class-exclusive[1] G56 6-speed manual transmission is packaged with the 350 hp/ 660 lb-ft Cummins Turbo Diesel. The 6-speed manual offers exceptional control when towing and hauling, and its availability for Ram 2500/3500 clearly separates Ram Heavy Duty from the contenders.
- + Best-in-class[1] diesel oil change intervalsup to 15.000 miles-seriously reduce downtime and costs of regular maintenance.

The AISIN Heavy-Duty 6-speed automatic is packaged with the available Cummins High Output Turbo Diesel. AISIN advantages include a sophisticated Transmission Control Module which momentarily turns off the exhaust brake (on the Cummins), and a ramped-up Tow/Haul Mode with a more aggressive downshift schedule to meet anticipated commercial-grade hauling demands.

FROM ANY ANGLE, CLEARLY A LEADER.

Ram Heavy Duty model frames employ an integrated rear axle crossmember with provisions for an available fifth-wheel and gooseneck hitch. Mounting provisions are integrated into the production box floor and include fifth-wheel pucks, gooseneck bolt plates and gooseneck center castings, with the 7-pin wiring connector mounted directly into the bed.

New for 2016 Ram 2500/3500: Available LED Bed Lighting that welcomes working at night and eliminates adjusting a tonneau cover. Installed right at the factory, this convenient lighting augments the CHMSL-mounted lamp to illuminate the rear area of the cargo bed. With multiple controls—either from the instrument panel-mounted switch or a button on the remote key fob—you have ample illumination on each side of the cargo bed that makes loading and unloading during dark hours

1

Shared technology between Ram 2500/3500 also includes the indispensable front axle disconnect, which automatically disengages the front drive axle when reengaging the rear-wheel-drive mode on 4WD models. Our front axle disconnect is engineered with purpose: the design acts to reduce parasitic losses: the overall contribution helps improve fuel efficiency.

All Ram 2500/3500 models feature as standard equipment the unique three-link front suspension—and it gets better. Working with the three-link front suspension is an integrated large stabilizer bar to ensure the roll stiffness required by the GVWRs of Ram Heavy Duty—and they are impressive. For Ram 2500, GVWR is rated up to 10,000 lb; for Ram 3500, it vaults up to 14,000 lb.

Whether used for business or pleasure, a Ram Heavy Duty lets you take on the toughest tasks with total confidence. Frame strength is critical; you need resilient stiffness that translates into capability while towing, with the structural integrity that delivers occupant comfort while still hauling big payloads. The 2016 Ram Heavy Duty high-strength steel frames carry the solidity of 50,000-psi steel, providing a Ram tough chassis that'll take on nearly every towing and hauling assignment out there.

tront-load accessories. Counting earning a living? Count on a high snow plow rating of 1,265 lb and store the eavy Duty—and they up to 10,000 lb; for
